Frequently Asked Questions Regarding the Whole Light Beings

by Toni Elizabeth Sar'h, Chancellor to the Whole Light Beings

Question: What are the Whole Light Beings, the Light Orbs?

Answer: The Light Orbs are plasma-bodied, conscious beings that have been present within this dimension long before we could see them. They operate as a group mind, in other words when you see or hear one Light Orb, it represents the whole. They tell me they are the Guardians of our souls and the Guardians of our capacity to love.

Their bodies in this frequency dimension are similar to plasma. Plasma is defined as an ionized gas. In most states of matter, the electron is bound within the atom. In the ionized state, the electrons are free, unbounded. This free electric charge reacts strongly within the electromagnetic field of earth. Even the space between the stars contains plasma.

This plasma state is one of the reasons cameras are able to take pictures of the Light Beings so easily. The camera flash "sends" photons toward the space in which the Light Being exists. Its free electrons pick up the photons which in turn accelerate their frequency of wavelength or amplitude. All of this happens very quickly. When the electrons return to their original wavelength, they release the accumulated photons (photoluminescence) and they are captured in photos or seen with the naked eye.

Contrary to some belief, it does not require a digital camera to take photos of the Whole Light Beings. Any type of camera will do including a video camera.

Question: Do the Light Orbs really talk to you?

Answer: Yes, they speak to me. When I am doing Light Orb Transmissions, I open my mind to their words, images and impressions. I then express what I am experiencing from them for the person who has asked me to transmit information. I say exactly what I am hearing, seeing or feeling without attempting to interpret a specific meaning or significance.

Question: How do you know it is the Light Orbs?

Answer: The Light Orbs first approached me about being their Chancellor (transmitter) in August of 2004. I questioned their meaning when they told me they wanted me to

"speak for them". What the Light Orbs explained was that since I already opened myself to the souls of others to transmit information in that way, it would be easy for me to do the same thing to receive information for them. It was when I asked them to identify themselves to me that they told me they are the "Guardians of Souls".

Since that time, when I have opened my consciousness to receive a transmission from them, I recognize the signature of their connection with me in the same way I experienced it in 2004. At that time, they were completely surrounding me. It was impossible to mistake who the request was coming from or if it was real. The Light Orbs' frequency is distinct enough to make it very easy for me to know the difference between my thoughts and the information they are giving me. Within my mind, it does not sound like or feel like my own thoughts. They definitely use words and expressions that are not my own.

Question: Why did the Light Orbs ask you to transmit information for them?

Answer: I asked them that very question. Their answer was, as usual, simple, "Because we knew you would not say 'no'."

Question: Do the Whole Light Beings have a message for humanity?

Answer: There are many different experiences being developed within the resonance of humanity at this time. Those of you who have been awaiting this time of change are not surprised. Those who did not know it would be coming may be feeling a sense of imbalance, fear and anxiety at what appears to be the disassembling of what has come to be the norm of life for earth. Know that these expressions of earth, the solar system and this universe are much the same as the birth pangs and delivery of a human baby. Though it does not look, or often feel, so lovely at the time of happening, the outcome is most delicious.

From the Whole Light Beings: "We are offering to connect personally with each of you who choose to create comradeship with our realm through the communion of individual connection. As the relationship deepens and becomes stronger, you will easily hear us speaking within your mind. You will also easily see us when you request to do so.

"As the transformative changes and alterations to your planet continue to heighten and as your earth life takes on new and ever-growing meanings to and for you, we are ready as 'guardians of your souls' to assist you in developing your inner core strength, your multidimensional vision and your internal knowing of the gifts of your soul and your heart. Most prominently, we hold the space for further development of your capacity to love. It is for this that we have aligned ourselves with this vibratory plane particularly during this 'human time' that we simply see as Now.

"Call one of us forth into your own atmosphere, your personal environment. We are eager to join in partnership with each and every one of you as the re-membrance of what you are comes ever clearer into your conscious awareness. Re-member, we *are* you."

Question: Why do the Light Orbs appear in different colors and shapes?

Answer: The Light Orbs are round and fairly translucent. When they appear, there are many different light refraction patterns possible in the environment. Add to that the camera flashbulb and you can create many different shapes and colors. The colors do not signify anything particular except what they mean to you. When I asked the Light Orbs this question, they told me that we could consider them different in color the same way we see our species in different colors.

While humanity changes skin color largely based upon climate, the Light Orbs suggested that their choice is more random than that and much more connected to the state of their being in the moment in which they are seen. They say, "Don't place so much significance on what you see. Listen to the message, instead."

Question: Why do the Light Orbs appear sometimes and not at other times?

Answer: They tell me that they are "traveling around" and are caught by camera or the naked eye in random circumstances. They also tell me there are times when they continue to "hang around" because they are having fun and the atmosphere is conducive to their experiencing a certain vibration. It does not have to be what humanity considers a sacred or spiritual place. They are rarely summoned by exterior conditions; rather by our desire to be present with them.

Question: How can I get the Light Orbs to appear for me?

Answer: The easiest way is to go to the same place, every day (preferably at night), at the same time and ask them to come to be with you. If you are not seeing them with your naked eye, I suggest you point and shoot your camera at random until you have Light Orbs in your photos. They **will** come!

One thing you also may wish to do is to look at old photographs. The Light Orbs are appearing in pictures taken long ago. You would not have seen them in the pictures when you originally looked at them because you are looking at them **now** and actually changing the past in the present moment. Your attention in looking for them in this way brings them to you in the old pictures. As you resonate with them, they resonate with you.
